

# Mohammed Rashid C

Motivated and detail-oriented B.Tech student in Computer Science with hands-on experience in front-end development using React.js, HTML, CSS, Tailwind CSS, and version control tools like Git and GitHub. Proficient in Python and Django for back-end development, creating full-stack web applications. Passionate about building scalable, user-friendly web applications and seeking a Front-End Engineer role to contribute to a dynamic team.

## Projects

### Quizera (React.js, Django)

In Development

- Developed a quiz platform where users can create quizzes and share room codes or links for others to participate.
- Implemented user authentication using Django and REST APIs, enabling private and public quiz participation.
- Designed the hero section of the landing page using React.js and Tailwind CSS.
- Planned features include a dashboard for user activity tracking, achievement badges, and quiz discovery by category or search.

### One App (React.js, MERN Stack)

Ongoing - Team Collaboration

- Collaborated with a team of frontend developers to build a community website similar to Twitter, where users can publicly share thoughts and message each other.
- Focused on developing the Message and Chat sections, implementing features like F&F (Friends & Family), Primary, and Requests message categories.
- Utilized useContext and useReducer to manage data flow efficiently, avoiding prop drilling.
- Contributed to building responsive, user-friendly interfaces using React.js.

## Career Experience

### Full Stack Developer (Thycha Creatives)

Fulltime - Jul 2024 - Sep 2024

- Developed and maintained a steel doors website using Django for the backend and HTML/CSS for the frontend.
- Implemented a feature for seamless steel door product management, allowing the company to easily add and update products through the admin panel.
- Built an efficient system for handling and organizing user inquiries and dealer requests directly from the admin panel, improving workflow and customer interaction.
- Maintained and updated existing client websites, including content updates such as banners and posters.

## Education

### Bachelor of Technology (B-Tech) in Computer Science

Vedavysa Institute of Technology

Jun 2020 - Jun 2024
